

supplies replacement ink rollers

Standard ink rolls are 3.0 inches long unless the unit is set up to use room jackets. In this case, 2.5 inch rolls are standard on units that are set up for CR-80 and 2.0 inch rolls are standard for CR-50 room jackets. Under normal conditions, the life of an ink roll is about three (3) months. It is recommended that customers change ink rolls approximately every three (3) months to insure continual quality impressions.
